"The Spirit itself bears witness with our spirit that we are children of God, and if children then heirs, heirs of God and joint heirs with Christ..." – ROMANS 8:16-17

If we are heirs to the kingdom of God, shouldn't we work to build up His kingdom? Shouldn't we be good stewards of our inheritance, using our time in prayer, our talent in charitable works and our treasure to care for the Church that God has left to us? Our Church is a treasured heirloom from God. Do we treat it that way?

THE TIGHTROPE "Life is a constant balancing act.

And it's a balancing act with a destination. We switch hats countless times over the course of our days. We wake up, and we're parents. We go to work, and we're employees. We do our best to be good spouses, children, siblings, friends, neighbors, and Catholics.

In the balancing act of it all, sometimes our faith feels like just another piece of our lives that we have to juggle. But what if there's a different way to look at it? **What if our faith is the path we walk as we balance the things in our lives? What if the things we're balancing actually help move us toward heaven?** In each short episode of the The Tightrope, Host Colin MacIver helps you discover the ways that your busy life doesn't have to be a distraction from God—it's your opportunity to encounter him. This podcast is perfect to listen to while waiting in a school pick-up line, doing the dishes, driving to the dry-cleaners, or on a lunch break at work. We promise that after listening, you'll see your faith, your family, your work, and the people around you with fresh eyes. You'll remember who you are and where you're going. And those two powerful truths can transform your mess into an incredible opportunity." Check out The Tightrope at: <https://blog.ascensionpress.com/podcast/reflectionsforbusycatholics/>

FORMED PICK OF THE WEEK

Science, the Origin of the Universe, and God

Where Faith and Science Align

All too often, science is employed as a means of disproving the tenants of Christianity. In this informative talk, Fr. Robert Spitzer, SJ – expert in physics, philosophy, and theology – debunks the incompatibility of science and Faith as he discusses the origin of the universe.

[Listen on formed.org](http://formed.org)

“After this, I simply cannot understand how anyone can argue that science and religion don't agree. A beautiful and intelligent talk. I recommend it to everyone.”
